

According to **EU Regulation no. 305/2011** for the placing on the market of construction products, it is mandatory for the manufacturer to issue a Declaration of Performance (DoP) in order to affix the **CE mark**; the manufacturer assumes responsibility for the conformity of the construction product with the DoP; in addition, **the manufacturer must contact a notified body** for verification of the requirements established by the product standard.

EN 1090-1, published in November 2011, defines the requirements for conformity assessment of structural steel and aluminium components.

INTERCERT GMBH – Group of MTIC – is a **notified body** under NANDO with n° **CE 2584** for the standard EN 1090-1 and we offer a **certification service** that is structured in **several stages**, with the completion of this service that allows manufacturers to affix the **CE mark** and place their products on the European market.

Step 1: DOCUMENTAL AUDIT

Verification of technical documentation and personnel requirements and/or certifications, if any.

Step 2: FPC ASSESSMENT

The factory production control (FPC) site is verified by qualified inspectors in accordance with the requirements of the applicable regulations.

Step 3: FINAL REPORT & CERTIFICATE

Releasing of the activity report, of the EN 1090-1 Certification of Conformity and of the related Welding Certificate (if applicable).
